

Privacy Policy for Pick Flowers

Effective Date: August 12, 2026

1. Introduction

Welcome to **Pick Flowers**. This Privacy Policy explains how we collect, use, and protect your information when you use the Pick Flowers mobile application (the "App"). We are committed to protecting your privacy and ensuring a safe gaming experience.

2. Information We Collect

Pick Flowers is designed to be a privacy-first game. We **do not** require you to create an account with a password, and we **do not** collect sensitive personal information such as your real name, email address, physical address, or phone number.

The only data we collect and process includes:

- **Nickname (User ID):** You are required to choose a unique nickname to participate in the global rankings. This nickname is not linked to your real identity unless you choose to use your real name (which we advise against).
- **Gameplay Data (Scores & Ranks):** We collect your scores, level progress, and high scores to update and maintain the global leaderboards.
-

3. How We Use Your Information

The data we collect is used strictly for the functionality of the App:

- To display your nickname and scores on the global and level-specific leaderboards.
- To maintain fair competition and ensure the game functions as intended.

4. Apple iCloud and Data Recovery

To allow you to recover your unique nickname and progress in case you uninstall the App or switch devices, Pick Flowers generates a secure recovery code.

- This code is saved automatically to your personal **Apple iCloud** account.
- We **do not** have access to your Apple ID, your iCloud account, or any personal files stored within it. The iCloud sync process is handled entirely by Apple's secure services.

5. Sharing Your Information

We **do not** sell, trade, rent, or otherwise share your data with any third parties for marketing or advertising purposes. Your nickname and scores are publicly visible to other players globally within the App's leaderboard system.

6. Children's Privacy

Our App is safe for all ages. Because we do not collect personally identifiable information (such as names or emails), we inherently comply with children's privacy protection laws. If a parent or guardian believes a child has provided a personally identifiable nickname, please contact us, and we will remove it.

7. Data Retention and Deletion

We retain your nickname and gameplay scores for as long as the App's leaderboards are active. We empower you with complete control over your personal information. You can permanently delete your leaderboard scores from our database and automatically remove the recovery token from your iCloud storage at any time by using the dedicated deletion feature located within the app.

8. Changes to This Privacy Policy

We may update our Privacy Policy from time to time. Any changes will be reflected in an updated "Effective Date" at the top of this document. We encourage you to review this policy periodically.

9. Contact Us

If you have any questions, concerns, or requests regarding this Privacy Policy or your data, please contact us at:
